

*Dear Customer,*

*I am pleased to announce that all Pestwise Pest Control technicians have recently been awarded top marks in all aspects of the Lantra Awards of “The Responsible and Effective Control of Commensal Rodents” (version 3.2). This enables Pestwise Pest Control, as your Pest Control provider, to plan and carry out Rat and Mouse control whilst conforming to the new regulations that make up the “Campaign For Responsible Rodenticide Use” (CRRU UK Code of Practise).*

*The new CRRU has been recently introduced by the UK Government body responsible for the regulations of rodenticides in conjunction with The Health & Safety Executive to ensure Best Practise in our industry. A copy of the CRRU UK Code of Best Practise can be downloaded from our website.*

*Regards,*

*Rob Plosky*
